Primula Malaccoides

"IMPROVED ERIKSSONI"

After years of painstaking effort, Mr. Ernst Eriksson, the well-known pot plant grower of Riverside, Illinois, has developed a strain that is truly "perfection" in this family. We cannot over-emphasize the importance of using only greenhouse-produced new-crop seed, in ERIKSSON'S ORIGINAL PACKETS, with Mr. Eriksson's cultural directions.

*Indicates generally preferred varieties.

ERIKSSON'S OUTSTANDING VARIETIES

***Eriksson's New Red (1942 Introduction).** A very unusual salmon-red—particularly suitable for Valentine combinations. Highly recommended.

***Glory of Riverside Improved.** True rose-pink, a strong grower and without a doubt, the most valuable variety for all purposes. A real pot plant, especially for 6 or 7 inch pot production, here we suggest placing three plants to the pot.

***Riverside Red Rose (New).** A brilliant red rose of very even color. A valuable introduction.

***Eriksson's New Giant.** Color resembles closely Glory of Riverside. Very robust habit, with flower size approximately 1½ inches. It is a late bloomer, thereby assuring the florist-grower a longer Primula season.

Eriksson's White Giant (New). An exceptionally strong grower and well adapted to combinations in place of Hyacinths. Color a real pure white.

Lilac Beauty. The color is a pure soft lilac, absolutely fixed. This is another fine color for making up artistic combinations.

Peach Blossom. Color a real deep peach blossom pink. It has a more compact habit than "Appleblossom," and it is also an excellent keeper.

All of the above priced at: 500 seeds.....\$1.00
2,000 seeds.....\$3.00 6,000 seeds.....\$8.00

ERIKSSON'S STANDARD VARIETIES

***Eriksson's Pure White (Improved).** A real improvement in a pure white Malacoides. Flowers profusely on numerous stems.

***New Baby (Improved).** An outstanding glowing deep pink, individual in color. Large flowered, heavy producer on strong stems.

***Brilliantcy.** The flower opens lavender but changes to a brilliant red in one or two days in a sunny greenhouse. A very attractive and unusual combination.

Baby Rose. Good medium pink color, free flowering, compact.

Appleblossom. A true appleblossom pink, very worth while.

Wonder Baby. Beautiful pink, rather tall but good producer.

ALL of the above priced at: 800 seeds.....\$1.00
2,000 seeds.....\$2.00 6,000 seeds.....\$5.00

Eriksson's Special Mixed. A real choice selection of the above varieties.

Primula Glory of Riverside Improved

CULTURAL SUGGESTIONS

Sow in May or June in light sandy soil. Shade with white-washed pane of glass. Give a little air and place in a cool part of greenhouse or frame, well shaded, keep moist, don't let soil get dry. Give a little more air and reduce shade gradually, keep some shade all Summer until transplanted and established.

Do not overwater. When large enough, pot in 2¼" or 2½" pots; when established give them plenty of light and air.

Temperature 45 to 50 degrees F. with plenty of air after last shift. Will grow fine in shelves in 6" or 7" pots, with 3 plants in a pot.

Light, air, and low temperature are the main points and do not let the plants get too dry between waterings.

Use a medium heavy, potting soil with some sand and Leaf Mold and well rooted manure.

Novelty

Mrs. Eriksson of Riverside

A glowing rose-red; very strong grower, with heavy stems and large, stiff foliage; large flowers in heavy clusters; medium height. Resembles the primula obconica more than any other Malacoides.

The Leading Snapdragon Improvement for 1944

YODER'S MARGARET

Similar in growth to Mary Ellen, it has a very stiff stem with very little side growth. Florets medium size and set a little closer than Mary Ellen. Spikes heavy and long. Winter-blooming ivory white. One Mid-western grower writes, "I can say only good things about Margaret." Better include this variety in your Snap seed order. **Originator's seed.** Tr. PRICES ON ALL FIBROUS ROOTED BEGONIAS

Due to extremely short crops on all Begonia seeds we are forced to pro-rate what is available by discontinuing bulk listings.

On any one variety or combination of varieties, we can supply no more than a TRADE PACKET of each priced as follows:

Trade Packet\$1.00

GRACILIS

Adeline. Dwarf habit of growth. Flowers a bright pink; pleasing in appearance against the green foliage. Replaces Pink Pearl not available.

Carmen. Bright pink flowers with richly contrasting bronze foliage.

Indian Maid. Has the same deep bronze foliage of Carmen with bright deep scarlet flowers producing a highly attractive combination.

Luminosa. Deep scarlet with reddish brown foliage.

Luminosa Compacta. From the middle of July onwards the small dark brown foliage is hidden by the mass of medium sized bright scarlet blossoms. This new variety, coming true from seed, is very useful for beds, borders, edgings and also as pot plants.

Prima Donna. Limpid rose shading to carmine. Very excellent variety.

Red Pearl (Domestic Strain). Dwarf, brilliant dark scarlet.

Tausendschoen. Lustrous rose.

White Pearl. Best white, light green foliage.

BEGONIAS (Continued)

SEMPERFLORENS

Albert Martin. Bright carmine, extra large flowered.

Christmas Cheer. Extra large-flowered crimson-scarlet.

Christmas Pink. This variety is of same habit as Christmas Cheer and equally as good.

Coral Prize. Beautiful coral pink.

Darling. Of compact growth, 8 to 10 inches, with large, light rose colored flowers about the shade of Glory of Erfurt. We have had this in full flower for Christmas.

Elegant (New). White attractively edged crimson, clear green foliage that contrasts well with the flowers.

Essen. Buds bright cherry red while flowers are amaranth with contrasting mauve center.

Glow. Dark red flowers; foliage light bronze; free blooming and compact.

Gustav Knaake. Glowing salmon pink, resembles Mellor.

Isle de France. A good clear pure white.

King of the Reds. A glowing scarlet similar to Red Pearl in color and habit of growth. Foliage green with bronzed edge.

Masterpiece. A lovely clear rose-pink Begonia, and the most outstanding in this color class. The large-sized blooms are produced so abundantly that the foliage is really overshadowed. A large bed of "Masterpiece" observed on a large estate near Chicago was a sight to behold. For pot plants as well as for bedding, you have something if you have this exceptional new Begonia.

Scandinavia (Eriksson's). A new, continuous flowering, Semperflorens Begonia with a wonderful branching habit. Sow seeds in January for Memorial Day; in May or later, for winter; October or November, for Mother's Day purpose.

Red.	Pink.	White.	Mixed.
------	-------	--------	--------

Snow. This new, snow-white, profusely flowering Hybrid is outstanding on account of its resistance to heat, drought, and excessive moisture. Pure white medium sized flowers show up well against the rosy stems and light green leaves. About 10 inches high.

Vernon. Deep red.

"White Lady." Substantial, beautiful pure white flowers, almost as large as those of our "Masterpiece," to which it makes an excellent companion.

Zahringer. An outstanding bright pink color. Flower has white center.

Mixed. Choice selection of varieties listed above.

CALENDULAS

A. B. C. IMPROVED SENSATION

Considered by many to be the best Calendula for cut-flower purposes. Flowers very large, deep orange with scarlet sheen, light center.

Tr. Pkt. **.25c** ¼ oz. **.60c** ½ oz. **\$1.10**
1 oz. **\$2.00** 2 oz. **\$3.50** 4 oz. **\$6.50**

Masterpiece. Clear rich orange with an attractively contrasting dark brown center.

Improved Long Orange. The largest flowered and longest stemmed Calendula. Clear bright orange with light eye.

Lemon Queen. Clear medium deep yellow with a dark brown center that contrasts most effectively. Generally preferred yellow.

Gold. Deep golden yellow, long-stemmed and large flower with light center. Stem, size, and color in this are outstanding.

Supreme. Light shade of orange with a richly contrasting brown center, not extra long-stemmed but freer flowering than any of the above.

Apricot. Rich apricot or straw color with a finely contrasting brown center. Same habit as Ball's Supreme, from which it is a selection. Inclined to occasionally produce orange petals with the apricot. Some should be grown for variety.

Note: Unit price on weight lots will apply in combination with two or more of above varieties. For instance, on ¼ oz. each of four varieties, instead of 60c each, or \$2.40 for the four, the ounce price of \$2.00 will be accepted.

ALL of the above uniformly priced as follows:

Cineraria "Cremer's Improved Prize Strain"

CINERARIAS

A. B. C. DE LUXE MIXTURE

We have received numerous requests from growers for a good all-around assortment of Cinerarias, such as will be filled by the A.B.C. De Luxe Mixture. Composed principally of select strains of Cremer's Prize and Siter's Rainbow, it also contains a portion of Berlin Market, Hybrida Grandifloras, and similar desirable types.

CARNATION FLOWERED

Gigantea Sunset Giants is a Novelty from California; it is said to have the largest known flowers in the "Marigold" group, averaging 5 inches and some flowers attaining a size of 7½ inches across. Instead of the usual "Marigold" odor these flowers have a definitely sweet fragrance. This is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent double. The plants are normally 3½ to 4 feet high, but under favorable conditions have been known to grow as much as 7 feet high. Excellent for cutting.

Tr. Pkt. 20c ¼ oz. 55c Oz. \$1.75

Gigantea Orange Sunset. The color is a deep, rich, lively orange, one of the most admired shades found in the Sunset Giants Mixture. The plants are strong growing, upright branching in habit, usually about 3 feet tall, producing a heavy growth of foliage, and with 6 to 8 heavy branches, each bearing 3 to 6 large flowers. Blooming commences about the first of August in most sections of the country, in late June in the southern states, and flowers can be depended on well before frost in any latitude. Orange Sunset has been tested and found to be a fine forcer in the greenhouse, and will come over 65 per cent double.

Burpee Gold Improved. Odorless foliage. Here is truly a Marigold with a host of things to commend it—even, rich, deep orange color, large flowers, 3½ inches across, beautiful Carnation-like form, attractive habit, uniformity of color and blooming time, full doubleness with no singles, earliness, and above all absolute freedom from the usual Marigold odor. Flowers somewhat resemble Guinea Gold, being made up of loosely arranged rays or petals which are shallowly fluted.

Pansies

A. B. C. "DE LUXE" MIXTURE

This mixture is the result of many years' selection from the world's finest strains. The seed is hand-picked from personally selected plants, which justifies us to call this unquestionably the world's finest strain of fancy Pansies. We highly recommend it for cut flowers as well as spring plant sales. Growers tell us that A. B. C. "De Luxe" Pansy plants easily command a premium over stock produced from other so-called fancy mixtures. This superb strain of Pansies is of largest size, richest and most varied colors, and contains several shades of beautiful reds. You will make no mistake confining your Pansy cultures to this outstanding mixture.

A. B. C. GIANT WINTER-FLOWERING

Mixture. Plants grow 2½ to 3½ feet high, with six to eight strong upright stems bearing numerous good sized blooms on flower stems 10 to 12 inches long.

Seed should be sown under glass. Set the plants 12 inches apart in the bench and support the same as Carnations. May also be grown in 6-inch pots sunk in the bench if desired.

The color range is excellent, and if the blooms are kept cut as they mature the flowering period will continue from December well on into the spring.

Lavender Glory. Lavender Glory is a soft mauve lavender bearing the largest flowers of any in the group. The individual florets are up to 1¼ inches in diameter, beautifully formed and abundantly produced on long, wiry stems. Large Tr. Pkts. \$1.00

Snowflake. Snowflake has flowers of the purest shimmering white. Its beautifully formed 1-inch florets adorn the stately stems like glistening jewels sharply highlighted by the lush green foliage. Large Tr. Pkts. \$1.00

Sweetheart (New). Sweetheart adds a distinct bi-color to the group. The blooms are a bright salmon-pink bordered with a wide band of white softly flushed flesh pink. In the center is a tiny but distinct touch of golden yellow. The individual florets are 1 inch in diameter, produced in many whorls on the long, heavy, wiry stems. Exceptionally free blooming. Large Tr. Pkts. \$1.50

Mixture. The Mixture contains all of the above single varieties, together with a good many others still in the developmental stage. Large Trade Packets. \$1.00

Please see the inside front cover for a complete list of *Primula Malacoides* Erikssoni. We cannot over-emphasize the importance of using only greenhouse-produced new-crop seed, in ERIKSSON'S ORIGINAL PACKETS, with Mr. Eriksson's cultural directions.

Double Fairy Jewels. Fairy Jewels has literally hundreds of florets, ¾ to 1 inch in diameter, which lend a gay, cheery note to a fine pot plant or to the early spring garden in mild climates. The color is a lovely rich rose-pink, slightly deeper in the center than the older outside petals. The doubleness consists of a crested center of two or three extra rows of petals appearing at first as a tuft in the center of the flower, but later lying flat in double rows when the flowers fully open. Fairy Jewels comes 90% to 95% double from seed. Large Trade Packets. \$1.50

Double Twinkles (New). Exquisitely dainty in coloring, Twinkles is a very soft flesh pink, each petal accented with a picotee penciled edging of rich rose. Exceptionally free blooming, ¾ to 1 inch florets on wiry stems. This strain comes 90% to 95% double from seed. Large Trade Packets. \$1.50

This type produces one enormous spike 2 to 3 feet in height and is especially adapted for greenhouse culture, as the plants can be grown close together. We have discontinued listing the other separate colors in this type, due to its being practically impossible to obtain seed that will prove satisfactory and give a high percentage of doubles. Those listed are, in the opinion of most florist growers, the only reliable colors to grow.

A.B.C. "Easi-Off" WOOD PLANT BANDS

Grow All Your Plants, Seeds, and Cuttings This Modern Way

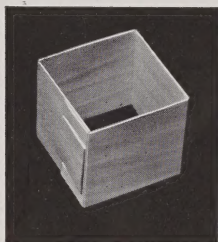

Removed
without
cutting

This modern method of culture saves time and labor, and assures the highest yield in cut flowers, potted plants, perennials, nursery stock, etc. Saves losses at transplanting time by avoiding a check to root systems. **Buy now for immediate use and for stock on hand.**

Easily
assembled

**"Easi-Off" PLANT BANDS Are Removed Without Cutting.
The Dirt Ball and Roots Are Not Disturbed.**

**SIX SIZES
For All Types
of Growing**

"Easi-Off" PLANT BANDS hold nearly three times as much soil as the equivalent sizes in clay pots, allowing a longer growing time without bound roots.

NOTE THESE EIGHT IMPORTANT ADVANTAGES

1. Saves at least one shifting operation in growing potted plants.
2. Non-porous; holds moisture longer, in the bench or in the ground.
3. In cut flowers, the current crop can be kept in production in the benches as long as desired, while plants for the next crop are developing, healthy and strong, in "EASI-OFF" PLANT BANDS . . . Ideal for Snaps, Stocks, Carnations, Tomatoes and all greenhouse crops.
4. Clean and safe, protecting against fungus.
5. Suitable sizes for evergreens, field roses and other lining-out stock.
6. Ideal for carrying perennials over into fall or spring.
7. Durable but light; can be shipped without removing the plants, thus retaining moisture for outside feeder roots.
8. "EASI-OFF" saves a great deal of time in removing the plants; no cutting—just pull apart the slotted edges.

A. B. C. "Supreme Quality" Croft Lilies

Among the number of varieties of American-grown Lily bulbs forced by florists this past Easter, the **CROFT** was unquestionably the most successful pot plant. Its unusual foliage makes a uniform plant that attractively supports the large white, bell-type flowers of good substance. The excellent results possible with **CROFT** is no better shown than in the unretouched pictures on this page, taken in the greenhouses of the Holm & Olson Co. at St. Paul, Minnesota, four days before Easter, 1944.

At the left is a choice **CROFT** Lily with

SEVENTEEN PERFECT FLOWERS

CROFT Lily bulb prospects for Fall 1944 delivery look reasonably good, barring unforeseen difficulties. Our Mr. Miller recently traveled more than three thousand miles among the bulb growers of the Northwest, inspecting the growing stock of **NARCISSI**, **IRIS**, **TULIPS**, **LILIES**, and other popular bulbs. He contracted with the Croft Lily Growers Association for the best quality bulbs for A. B. C. customers. Let us reserve some of these *genuine CROFT* for you—available in all sizes six inches and up.

We also will have bulbs of the following Lilies—**CREOLE**, **FLORIDI**, **HARRISSI** and **SHANGRI LA** (Mexican grown). Among the hardies we will have *Regale*, *Tenuifolium* and *Candidum*.
